

Flying home for Christmas

Help keep security queues to a minimum this festive season by carefully packing your hand and hold luggage before you fly.

Flying with Christmas crackers?

Christmas crackers cannot be packed in your hand luggage. Some airlines allow you to pack them in your suitcase, but not all do, so please check with your airline before you fly.

Don't pack wrapped gifts in your hand luggage

Your items may need to be opened and checked by Security. Even brand new items such as phones, cameras and laptops will be removed from their packaging.

Fragrance gift sets, liquids, gels and aerosols over 100ml

Should be packed in your suitcase and checked into the aircraft hold. Smaller items under 100ml can go in a clear plastic bag in your hand luggage.

Don't forget! Shop after Security for gift sets, fragrance and duty free

You'll be allowed to take the airport shopping bag on board in addition to your hand luggage.

We'd like to wish all our passengers a Merry Christmas and a safe journey home
