Noise Monitoring Sub-Committee

Date:	Friday, 20 October 2023
Time:	10.30 a.m.
Venue:	Online via Microsoft Teams

Contact Officer: Mike Jones, Secretary
Tel: 0151 691 8363
e-mail: MichaelJones1@wirral.gov.uk
Website: <https://www.liverpoolairport.com/liverpool-john-lennon-airport-consultative-committee>

AGENDA

1. **APOLOGIES**

2. **DECLARATION OF INTERESTS**

Appointment of Vice Chair

3. **APPOINTMENT OF VICE CHAIR**

4. **CHANGES IN MEMBERSHIP**

mention change in membership at Liverpool Council;

5. **MINUTES OF LAST MEETING (Pages 1 - 18)**

To approve the minutes of the Noise Monitoring Sub-Committee meeting held on 28 July 2023, attached.

6. NOISE COMPLAINTS LOG (Pages 19 - 84)

To consider the Noise Complaints Log for the period 1 July to 30 September 2023, attached.

7. AIRSPACE CHANGE

8. DECARBONISATION PLAN

9. DATE OF NEXT MEETING

The next meeting of the Noise Monitoring Sub-Committee will be on 19 January 2024 at 10.30am.

10. ANY OTHER BUSINESS

NOISE MONITORING SUB-COMMITTEE

Friday, 28 July 2023

Present:

Norman Elias, Chair
Councillor Kimberley Berry, Liverpool Council.
Helen Bradshawe, Knowsley Council
Ian Rushforth, Liverpool Council
David King-Hele, Wirral Council
Bob Swann, Chair of Consultative Committee

Liverpool John Lennon Airport

Andrew Dutton, Head of Environment
Colin Barnes, Environment and Safeguarding Manager

Secretariat

Mike Jones (Secretary)

20 **APOLOGIES**

Apologies for absence had been received from:
Martin Chan, St Helen's Council
Martin Doyle, Cheshire West and Chester Council
Ian Gaskell, Knowsley Council

21 **DECLARATION OF INTERESTS**

There were no declarations of interests.

22 **CHANGES IN MEMBERSHIP**

The Secretary informed the Committee that it had been discovered that there was no place on the Noise Monitoring Sub-Committee for the Disabled Persons Representative. The error originated a few years ago when it was practice for the Vice-Chair of the Consultative Committee to be the Chair of the Sub-Committee, but they were independently elected now.

The Chair noted that the Disabled Persons Representative, Tony Rice, had been a respected member who made valuable contributions.

The Secretary also noted that there had been elections in many Council areas since the last meeting and there may be changes before the next meeting.

23 **ELECTION OF VICE CHAIRMAN**

The Chair invited members of the Noise Monitoring Sub-Committee to appoint a Vice Chair for the next business year.

No nominations were forthcoming so the matter would be deferred until the next meeting and would be informed about the need for nominations in advance.

24 **MINUTES OF LAST MEETING**

Resolved - that the minutes of the meeting of the Noise Monitoring Sub-Committee held on 21 April 2023 be agreed as an accurate record.

25 **NOISE COMPLAINTS LOG**

Colin Barnes, Environment and Safeguarding Manager, introduced the Noise Log for the period 1 April 2023 to 30 June 2023. He went through the slides, which are attached, giving details of aircraft movements for runway 09 (towards the east) and runway 27 (towards the west); numbers of movements and passenger numbers; night time movements; movements by airline; proportionate runway use (usually 70/30) complaints per day, with 14 maximum connected with runway 09; numbers per complainant, with average four or five per person; local authority areas of complaints, with 107 from 9 people being highest, from Cheshire West and Chester; main complaint geographical areas; reason for complaints with the most numerous split between general complaints, departing runway 27 and departing runway 09; comparison to last year; complaints vs aircraft movements; complaints vs runway use with higher when depart on runway 09; complaints per runway use, where there were more when runway 09 was used for a number of days; and ground engine tests, though there were no complaints over regarding engine testing.

There were over 100 complaints which was markedly up from 30 in the same period in 2022. Members queried the detail on some complaints, noting redactions and bad language, but were informed that complaints were considered even with such factors. They noted the possible reasons for the large increase in complaints, was there are more aircraft movements as the aviation industry recovers from the pandemic travel restrictions, as well as more people working from home and people moving into the area during the period of less aircraft movements.

A new draft example 'dashboard' display of the statistics was presented which could be used to analyse many different factors and was being considered for use in the committee and potentially wider. However, there was wider concern about privacy and the perception of being able to identify individuals needs to be resolved.

26 **NOISE ACTION PLAN**

Andrew Dutton provided an update on the Noise Action Plan. The Plan originated from the EU Environmental Noise Directive but had been transposed into English legislation as the Environmental Noise Regulations 2006 (ENR). ENR relates to major noise generators including roads, railways, and industry as well as airports.

Liverpool Airport was the responsible authority for mapping aircraft noise at LJLA every five years. The last modelling being 2021, the noise contours were significantly smaller than previous years (2006, 2011 and 2016) because the airline industry had not yet recovered from the Covid pandemic. The maps and noise contours were displayed. It was noted that measurements were weighted to night-time when people were thought to be disturbed more. The revised Action Plan noted the improvements that would occur as the airline's fleet improvements as aircraft were replaced by more efficient and quieter models. Particularly noisy aircraft would be restricted unless they were being used in an emergency at night between 2024 and 2026. The Sound Insulation Grant Scheme was to be enhanced and there would be a formal annual workshop with airlines about noise performance and incremental improvements.

27 **AIRSPACE CHANGE**

Andrew Dutton gave a brief update about the airspace change process. It had originally started in January 2018 and reached stage 4a in the 7-stage CAP1616 process, before being paused during the Covid-19 pandemic. During the time the LJLA ACP was paused, Airspace Co-Ordination Group (ACOG) had been formed to co-ordinate/facilitate where multiple Airspace Change Proposals (ACP) interact and the National Airspace Master plan has been developed so LJLA, so LJLA made the decision to revisit Stage 2A as part of the LJLA ACP restart. The members confirmed that they had received the Stage 2 engagement invite, and Andrew Dutton made adjustments after the engagement sessions and the subsequent feedback. The submission documents were being prepared and would be submitted to the CAA as the regulator for a September Gateway.

The members were reminded that if successful the implementation would be in the 2027/28 Winter. Implementation is Stage 6 of the 7-Stage CAP1616 process, the final Stage 7 is a post implementation review (PIR) which was undertaken 12 months after the implementation.

28 **DATE OF NEXT MEETING**

The next meeting of the Sub-Committee was 20 October 2023 at 10.30 am on Microsoft Teams.

29 **ANY OTHER BUSINESS**

There was no other business.

20

- Environmental Noise (England) Regulations 2006 (as amended), transposed the European Environmental Noise Directive into the English legal framework.
- The regulations apply to noise from road, railway and aviation sources, as well as industrial noise.
- The Airport Operator (e.g. Liverpool John Lennon Airport (LJLA)) is the responsible authority.
- LJLA has produced noise contour maps for 2021 that have now been approved by Defra along with those from 18 other UK Airports.
- The noise contour maybe compared with similar modelling exercises in 2006, 2011 and 2016 – the 2021 contours show considerably less exposure due to the pandemic travel restrictions

				limit		
07 July 2023	10:10	Hale	Halton	Why are you using 09 for departures when it's clear to see from the attached Met Office forecast the wind direction is South. Don't spout more of your previous nonsense about using different forecasts to the Met Office. Wind is wind and you don't have your own mini ecosystem at the airport.	Depart 09	General complaint regarding disturbance caused to resident by aircraft taking off from runway 09.
08 July 2023	00:12	Thingwall	Wirral	Residence of Wirral have become insignificant to your airports greed. When did we accept that your airport would have flights approaching and landing before civilised times, even New Zealand and Australia close the airport between 11 pm and 7 am. you're a small airport, this should not be happening, It woke me up and again shook the housed. I am in a bungalow on not on your flight path or approach. Yet again no regard to residence safety or noise pollution I am so tired of my mental health and physical health being affected by inconsideration, I am exhausted. 28 years I have lived in this house, no aircraft approached or departed over it, until past 5 years, there is no need STOP THE SHORTCUTTING and allow people	easyJet EZY3410 Arrive 09 Airbus A320 Dalaman 1937ft. 76.1dB	Aircraft Operated within normal parameters

NOISE COMPLAINTS LOG

				who work hard at least 8 hrs sleep!! I demand height of thus aircraft.		
11 July 2023	23:43	Thingwall	Wirral	Thank you for unnecessarily looping Wizz Air flight over Thingwall, at 11.38, do you have any aircraft that fly at their given time, this was scheduled at 8.00. Really appreciate being woken up yet again! W43012.these unscheduled late night flights are becoming constant, such a badly run airport, with no consideration to Wirral residence who have NEVER been asked about the amount of flights and the low approaches, that you allow aircraft today, our safety and physical mental welfare does not matter to you ion the slightest.	Wizz Air W43012 Depart 27 Airbus A320 Bucharest 6170ft. BAR 75.7dB	Aircraft Operated within normal parameters.
14 July 2023	17:05	Thingwall	Wirral	Unbelievable from 5.20 to 6.40 am this morning 4 planes flew over and around my property, after being worn, Your airport who should not be receiving traffic then, have successfully made it impossible for me to go back to sleep. Thank you for making an already stress job, worse with lack of sleep. I just put in a shift as far as I am concerned 5.40 - to 5.05pm...due to inconsiderate flying Again!! Why did 4 aircraft have permission to	Ryanair FR449 Depart 27 Boeing 737-800 Dublin 6490ft. WAL	Aircraft Operated within normal parameters.

				in the morning. I have a little girl who is about to turn 2 years old, and she is consistently disturbed and woken up around 6am or whenever the first plane flies over. Her nap times in the day are also very difficult as it's noises though out the day. I am becoming increasingly frustrated by the noise, so much so I am considering moving house because of it. I have just had a look online and note that some airports have grant schemes to install sound insulation in affected homes. Is this something you offer?

				low planes almost every day and would be happy for you to site a noise monitor at our address so you can see for yourselves how loud they are.		
25 July 2023	16:40	Runcorn	Halton	We are becoming increasingly concerned by the environmental noise created by airplanes, particularly in the middle of the night and the increasing air traffic through the day. We find the night flights particularly disturbing to our sleep. We live in the main urban area of Runcorn a heavily densely populated housing area and we have noticed the increasing flight passage over our properties. We would like to request responses to the following questions: Can you please clarify your night time policy Can you also confirm if the number of flights during the day and night have increased in the last 12 months compared to the same period 2018-2019, if so by how many Can you please clarify if there are to be any airspace change proposals and whether in these proposals we are likely to see less air traffic over Runcorn or more air traffic	General Complaint	
26 July 2023	02:35	Runcorn	Halton		Wallasey VOR Outage Depart 27

LIVERPOOL AIRPORT NOISE MONITORING SUB-COMMITTEE:
\$w3ehn543.docx

26 July 2023	23:00	Aigburth	Liverpool	We have noticed a distinct change in flight paths over our house recently. One evening this week (we think it was Wednesday), we heard three flights come extremely low over our house, late at night, which woke us not long after we'd gone to sleep. We've also noticed a sharp rise in low flying, loud aircraft coming right over our house, and wish to complain. We would be grateful if the flight path could please be reviewed. If flight paths have been changed recently, we were not consulted as local residents and this is already bothering us immensely. We have young children and are bothered about the noise.	Wallasey VOR Outage Depart 27	
26 July 2023	06:06	Hoole	Cheshire West & Chester	26/7/2023 6:06am U23367 lpl to agp	easyJet EZY3367 Depart 27 Airbus A320 Malaga 5791ft. NAN	Aircraft Operated within normal parameters.

LIVERPOOL AIRPORT NOISE MONITORING SUB-COMMITTEE:
\$w3ehn543.docx

27 July 2023	06:00	Aigburth	Liverpool	Plane noise is much louder in recent weeks. A member of our household works nights and so this is very disruptive, disturbing sleep. The noise didn't use to be so noticeable - have the flight paths changed? It is now very bad.	Wallasey VOR Outage Depart 27	
27 July 2023	07:51	Hoole	Cheshire West & Chester	27/7/2023 7:51am FR9862 lpl to agp	Ryanair FR9862 Depart 09 Boeing 737-800 Lodz 1107ft. NAN 85.5dB	
27 July 2023	06:17	Hale	Halton	Very loud plane over my house	Ryanair FR8458 Depart 09 Boeing 737-800 Lodz 1107ft. NAN 85.5dB	Wind from east prompting use of runway 09.
27 July 2023	22:00	Aigburth	Liverpool	The flight paths of the airport appear to have changed recently to fly and turn across Aigburth/South Liverpool as opposed to up the Mersey/River. More people must now be affected compared to the previous path. Early morning and late night planes now much more noticeable.	Wallasey VOR Outage Depart 27	Aircraft Operated within normal parameters
28 July 2023	00:09	Garston	Liverpool	My complaint is specifically about 1 flight, but I also have a general query about flight paths from the last 2 days. The specific flight was the Wizz Air flight to Iasi - it flew directly over our house shortly after midnight. It was incredibly loud and woke up	Wallasey VOR Outage Depart 27	

Page 26

NOISE COMPLAINTS LOG
LIVERPOOL AIRPORT NOISE MONITORING SUB-COMMITTEE:
\$w3ehn543.docx

				multiple people in my house and was quite frightening. My general point though is that flights don't usually go directly over our house - they generally turn back in-land further down river and pass over Sefton park. That Wizz Air though, and multiple other flights in the last few days have been banking away from the river much earlier than they usually do, and are therefore flying over houses at a much lower altitude - is there a reason for this?		
28 July 2023 Page 27	06:30	Aigburth	Liverpool	Over past few weeks have noticed planes have started flying directly over my house. Noise is enough to wake us up. This morning 6.30am then another 6.40am. Last night around midnight and 11pm. Keen to understand why this is now happening and if it is within the guidelines, thanks	Wallasey VOR Outage Depart 27	
28 July 2023	08:48	Moore	Cheshire West & Chester	This morning has been a constant barrage of low flying noisy aircraft. We have to close the doors to hear the TV.	Ryanair FR442 Arrive 27 Boeing 737-800 Dublin 1914ft. 85.7dB	Aircraft Operated within normal parameters
28 July 2023	13:00	Garston	Liverpool	The noise from aircraft has increased a lot in the last few days and the direction has seemed to of changed too . More regular night time flights seem to be over our home . Which is reducing our sleep and peace.	Wallasey VOR Outage Depart 27

\$w3ehn543.docx

				have been living in this address for over a year and never had an issue so why is it that suddenly planes are flying really low over my house		
29 July 2023	06:09		Wirral	We live in the CH66 area and for the past week have had to endure excessive aircraft noise. We are starting to be woken up at 06:00 by loud aircraft noise. One of the worst times is around 20:05-20:10 when the noise is that bad we can't hear the TV or each other speak, at one point it felt like the house was vibrating. We've never had this issue previously, not even pre-pandemic, so we're unsure why it's happening now? it is unacceptable and needs to be urgently reviewed.	General Complaint	Aircraft Operated within normal parameters
29 July 2023	06:10	Aigburth	Liverpool	Very loud plane overhead, much louder than before and very disruptive. I work from home so this is very distracting and causes a big issue when I am on online calls and meetings. This week it has been much worse than it has been before - has something changed? It cannot continue like this.	Wallasey VOR Outage Depart 27	
29 July 2023	12:00	Aigburth	Liverpool	There has been a noticeable increase in noise from aero planes coming and going from Liverpool airport. I have now been advised flight paths have	Wallasey VOR Outage Depart 27

LIVERPOOL AIRPORT NOISE MONITORING SUB-COMMITTEE:
\$w3ehn543.docx

				changed. I would welcome a rethink by the airport to revise flight paths so not to overly disturb local communities. What was a peaceful location to live is now polluted with engine noise.		
29 July 2023	12:00	Grassendale	Liverpool	aircraft seems to be lower and more frequent over our houses particularly in early morning and late evening. Is this permanent flight path change? I've lived here 42 years and never been this bad!	Wallasey VOR Outage Depart 27	
29 July 2023	15:00	Aigburth	Liverpool	Much louder plane noise than usual, much more noticeable and intruding on our peace and quiet on the weekend. Very disturbing.	Wallasey VOR Outage Depart 27	
29 July 2023	16:00	Aigburth	Liverpool	I live in the Aigburth/Garston area of Liverpool and during the past few weeks have noticed a considerable increase in aircraft noise over the area. This goes on until around 11 pm and we are having to close all windows to reduce the disturbance. Please advise why this is happening and for how long will it continue?	Wallasey VOR Outage Depart 27	
29 July 2023	21:45	Aigburth	Liverpool	I'd like to enquire if there has been a recent flight path change as I'm now hearing noise every single night as planes are flying directly over my house, when for 14 years this has never happened before. If	Wallasey VOR Outage Depart 27

				there has been a flight path change is this permanent or just a temporary measure. If it is permanent then surely the people under the flight path should have been notified?		
29 July 2023	23:00	Garston	Liverpool	Why the sudden change of flight path. Planes heading for Northern European destinations used to gain height over the Mersey and then turn right over Sefton Park area or further west. Now they seem to turn right almost as soon as they have taken off flying low over Cressington Park area. The noise is disturbing at any time of day, particularly late evening and will be even more so when winter arrives.	Wallasey VOR Outage Depart 27	
30 July 2023	01:00	Mossley Hill	Liverpool	We have noticed a considerable increase in noise pollution from aircraft in our area. Planes are flying low over our house several times a day and producing a considerable amount of noise. Last night I was awoken at 11pm and again at midnight by low flying aircraft. The noise was deafening and in my opinion should not be happening at that time of night. We do not usually have this problem but over the past few weeks ourselves and others in Mossley Hill have reported the same	Wallasey VOR Outage Depart 27

30 July 2023	23:17	Aigburth	Liverpool	I was woken up from sleep by a loud plane passing overhead, sounding like it was just above the roof! Very loud.	Wallasey VOR Outage Depart 27	
30 July 2023	23:30	Aigburth	Liverpool	Increased loud aircraft noise throughout the day from Wizz air flights. Serious increase in the past 7 days	Wallasey VOR Outage Depart 27	
31 July 2023	00:04	Aigburth	Liverpool	Two very loud flights in quick succession which woke me up and disrupted my sleep which will have a knock on effect on my work as a counsellor in the morning. Very concerned that there have been a number of flights this evening at very high noise levels which will also affect my work as I work from home.	Wallasey VOR Outage Depart 27	
31 July 2023	00:30	Aigburth	Liverpool	Within half an hour of the time stated above, two very loud low flying aircraft turning from Liverpool airport. Noticeably louder than when on previous flight path.	Wallasey VOR Outage Depart 27	
31 July 2023	01:01	Aigburth	Liverpool	We were disturbed in bed by noise of overhead aircraft. We have lived in the property for almost 18 years and rarely have this level of disturbance at night but traffic appears louder recently	Wallasey VOR Outage Depart 27	
31 July 2023	05:00	Garston	Liverpool	For the past week or so there has been an increasing amount of planes seemingly flying very low causing an awful amount of noise. They have been at all	Wallasey VOR Outage Depart 27	

Page 37

NOISE COMPLAINTS LOG
LIVERPOOL AIRPORT NOISE MONITORING SUB-COMMITTEE:
\$w3ehn543.docx

				times through the day and night, including early hours in the morning which has caused me and my children to abruptly wake up and be unable to get back to sleep.		
31 July 2023	06:00	Aigburth	Liverpool	In just over one hour from 6am , 4 planes climbed near my house , waking us up and shaking windows , thus is totally unacceptable when the planes can climb over the river , as they used to do , with noise levels that are more acceptable . I am also concerned about potential pollution impacts.	Wallasey VOR Outage Depart 27	
31 July 2023	06:00	Aigburth	Liverpool	Change in flight path means that aircraft are flying directly over my home. Surely there should be consultation with residents regarding the possibility of heavy pollution from this air traffic	Wallasey VOR Outage Depart 27	
31 July 2023	06:30	Aigburth	Liverpool	"Dear team, 3 planes have flown over my home already today. The first one at 6.30 woke me from sleep as the noise from the engines was that loud. The 2nd and 3rd planes disturbed a conversation I was having with my husband. We literally had to pause the conversation as the planes went overhead our house as the engine noise was so loud. Can you please change the flight paths back to your old	Wallasey VOR Outage Depart 27

				a care.		
02 August 2023	07:36	Upton	Cheshire West & Chester	I have had the council back in touch with me to make it clear that there is no possibility of John Lennon either taking environmental concerns seriously or changing their behaviour and that my best would be to move out of the area. Based on this I will give up this pursuit of a quieter environment with cleaner air and concentrate on finding a different part of the country to move my family to. I am genuinely saddened by this entire affair.	General Complaint

Page 51				<p>noise directly over your house at this time. I bought a house that was not on any flight path for Liverpool Airport and have at no point been communicated with to update that were I live is now on a low flight path. There has been increased number of flights coming in to land and taking off that now goes over Little Sutton Ellesmere Port over the last few years, and this in itself is unacceptable. To have flights going over at such an early hour is appalling. I wish to lodge a complaint and have feedback on what action will be taken?</p> <p>I also want information on how and when approval for changing flight paths was given? Also how and when times that were deemed acceptable to fly over built up areas has changed and been communicated to those impacted? I also would like to know when it was deemed acceptable to fly over or close to an nuclear plant? URENCO Capenhurst is in the direct line of flight for the planes coming over this part of Ellesmere Port and should be a no fly zone for any planes. I look forward to a quick and full response.</p>

LIVERPOOL AIRPORT NOISE MONITORING SUB-COMMITTEE:
\$w3ehn543.docx

				<p>noise is that this situation could be easily resolved by ensuring that flights travelling to and from the airport are flying at a greater height; thus removing the impact of noise for residents all together. You fail to mention in your response the percentage increase in the volume of aircraft travelling too and from the airport over the past decade. I would estimate that the volume has possibly quadrupled. This is the reason why residents are feeling the brunt of the disruption. I also do not accept that its an either or situation I.e. the benefit of the jobs and value to the local economy should be at the detriment to the health of local residents. The one simple measure that I have outlined above would reduce the noise pollution and disruption for residents almost instantly. Alternatively I am also willing for you to suggest alternative measures for reducing the impact of the noise, which I predict is only going to increase. Has the airport commissioned a report or feasibility study on predicted growth over the next five to</p>

03 September 2023	09:00	Stoke on Trent	Stoke on Trent	Flight registration: G-RVNE Small aircraft. This is a regular occurrence for this aircraft. Constant low level, slow circular flights over residential properties in Stoke on Trent. Flight details show it has taken off from your airport and is currently looping Stoke on Trent. Working nights this aircraft is causing a nuisance, disturbing the peace and under The European Convention of Human Rights is breaching article 8 Right to private family life. Under aviation regulations and pilot code of etiquette I request you investigate the craft and pilot detailed above. This aircraft is on its 4th loop as I report it. There is no acceptable response to this anti social behaviour by the pilot.	Raven air RVR8NE Depart 27 Partenavia P68 Liverpool 1900Ft.	Aircraft Operated within normal parameters. Photo survey.

				<p>which the aircraft could utilise. It is always people who are not affected by a problem (noise pollution), who seem to think it is a trivial matter. If you or your parents had to endure this disruption, then I am sure that your outlook would be entirely different. What is the point of John Lennon Airport having an Environment Team, if all they are going to advise people who complain that it is basically 'tough shit'. Surely the role is to come up with solutions to improve the environment, especially for residents who are being Blighted daily by noise from your aircraft. Now up to now I have sent you several emails about the noise, however none of your responses have come up with any proposal for reducing the impact of noise. Hence I have no understanding of the purpose of your role or your team. I would ask that you escalate my complaint to someone who can assist residents or at the very least Is interested in coming up with a possible solution other than just churning out outdated paper work.</p>

10 September 2023	11:22	Thingwall	Wirral	Thus week and weekend has been awful, the possibility of any Thingwall, Woodchurch, Irby residence of achieving 8 hrs sleep unless they don't work and catch up between flights. Was an impossibility. Ryan Air yet again returns with screaming engines and heights of 4,000 -3500ft now with the odd Wizz aircraft, who it seems has to take the whole of this area to bank when in fact, it approached from Liverpool side ! Ryan Air flights to Cork- Dublin are falling now at 10.30- 11.00pm Ryain air flight to Dubai 10-30pm to 12.00 and 6.10 am followed by three more flights to 6.30! This Saturday a flight was every 30 minutes, I had to sit with earphones, but I was livid when I watched an air Ryan plane approach to the east of me, readjust to slow fly over then bank away to the west!. Sunday morning	General Complaint	Reply sent with other of a visit to meet siblings who are a Pilot and ATC to discuss departure route and offer to install portable NMT.

				<p>really 6.10am Ryan Air at less than 4,00ft! I have recorded a flight last week, where a flight approached the airport of Liverpool, having flown over Bromborough area at just less than 1200 ft, which I know is unacceptable over residential areas. Again Heathrow, Stanstead, Gatwick, Manchester, even Lossiemouth, have a set approach path, its time this standard was met, and residents of Wirral have a right to sleep and enjoy their environment- again when was the last time. Pollution test was done over Wirral and noise test? This 6.10 - 6.30 dying of Ryan Air can be refuted and checked to not fly over residential areas, they can wake up cattle instead or sheep. For weeks they have been taking this route as I have slept Till 7am. Please stop Ryan Air flying and Wizz , flying over built up residential areas, you have been doing this for weeks, and now its not crept back, it literally woke me with a bang, my eyes show Ryan Air is back short cutting! I have now spoken to my national union and as a rep, have made a proposal that we survey our members, , on the Wirral and</p>

				Liverpool, about how many are being asked to do their jobs, who are affected by sleep deprivation caused by low flying aircraft before 7am and after 11pm, further to that we will extend this to pollution levels we are living in as the airport has developing, Its time for change to help Wirral residents, not platitudes on emails, or ignoring emails. We need a set approach path, which ever direction they runways are set, with clear understanding of lessening the impact on residents, Wirral authority should be aware of this and try to help those who supposedly live in a pleasant place? It's the most civilised way forward.

18 September 2023	21:00	Hale	Halton	There were what sounded like 3 planes landing in quick succession. The live arrivals board suggested only one plane landing at 21.07 from Dublin, but the noise on approach was incredibly loud and was repeated at least once almost immediately. Only moments later was a further noise which sounded more like a plane taking off, but again louder than we normally hear. The noise from the incoming plane(s) was incredibly loud and caused the house to shake and left me and family concerned that a plane was going to hit the house, such was the disruption.	RAF RR21 Arrive 27 Eurofighter Typhoon Conningby 355Ft. 102.4dB	Aircraft Operated within normal parameters
19 September 2023	20:39	Hale	Halton	My wife and I live with our neighbours who are experiencing flight path noise that has increased exponentially due to what appears a new flight path which comes directly over our homes. The new flight path has clearly not taken any consideration for those who pay their respective council tax nor any consultation as to the impact it will have on those living beneath the new flight path. The noise has increased and I find it to be having a	General Complaint Depart 09

				direct effect on our quality of life - it is disgusting that Liverpool Airport clearly focus on profit for share holders without any thought to those exposed to the incessant noise from the planes leaving and arriving at the airport. This is clearly another demonstration of profiteering to the detriment of those who live in the vicinity of the airport.

28 September 2023	07:17	Aigburth	Liverpool	This new flight path that is being trialled and that goes over one of the only high points of Liverpool and does an arc is invasive. It's loud and because of the arc the pilots take is all surrounding! Being on Mossley hill only brings us closer to the noise.	General Complaint	Reply to explain this route is not new with example from 2018.
30 September 2023	22:39	Hale	Halton	Why are you departing from 09 when the Met Office is reporting a southerly wind? We've had this since just gone 06:00am with no respite all day. We are exhausted and desperate to sleep but we can't because you are still using 09 even though it's a southerly wind.	General Complaint Depart 09
